OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug Business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and other countries far beyond, we are necessitated to devote our entire time to the said business.

We are the Oldest Drug firm on the Pacific Coast and the only one, continuous under the same proprietors since 1918, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

A GREAT MEDICAL DISCOVERY
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS
Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular. They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE
FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

THE BRITISH COLONIST.
Sunday Morning, May 14, 1871.

England Awaking.—Coolie Labor.

It is gratifying to be assured through reliable private sources that the English mind is now thoroughly awaking to the importance, the national necessity of the Canadian Pacific Railway. Not only is it regarded as a *sine qua non* to the success of the scheme of empire in which Great Britain and Canada are jointly engaged, but its national necessity in a commercial and political point of view is at length receiving recognition by the home mind. This is intelligence which cannot fail to cheer the British heart on this continent; for it conveys the assurance that the grand and god-like work alluded to in a recent article will be carried to a blessed consummation. It affords reasonable ground of hope that Great Britain will awake ere yet it be too late, and will build up a second self on this continent out of material hitherto culpably permitted to go to worse than waste at home or absorbed by a foreign and sometimes hostile power. The intelligence which reaches us through the same medium that there is on the *tapis* in England a scheme for the formation of a company to place a line of steamers on the route between this city and China, the immediate object being to introduce Coolie labor into this country to be utilized in the construction of the Canadian Pacific Railway, is anything but gratifying. The people of British Columbia would have no objection to the line of steamers, but they would have a very decided objection to the introduction of Coolie labor. To build the railway with such labor would be to divest that great work of very much of its immediate advantage to the country through which it must pass. That work will owe very much of its importance to the fact that it is to be instrumental in introducing and settling a large Anglo Saxon population; and just in proportion as Coolie labor is employed thereon will it fail in the accomplishment of that most desirable object. It should be the earnest endeavor of every public writer as well as of every statesman and patriot in this colony to seek by every legitimate means to avert such a contingency, and this is a duty in the discharge of which Canadians from the Atlantic to the Pacific should be found going hand in hand, inasmuch as all have a common interest in seeing the work done and the country settled up and developed by good Anglo-Saxon muscle—certainly not by a class that would leave nothing behind them but the railway.

West Indian Confederation.

The readers of this journal are already aware that there has been passed through the Imperial Parliament an Act for the Confederation of Her Britannic Majesty's West Indian possessions. These possessions embrace British Honduras on the mainland and the following islands: Bahamas and Turks Island, Jamaica; Virgin Islands, St Kit's, Nevis, Barbuda, Antigua, Montserrat, Dominica, St Lucia, St Vincent, Barbadoes, Grenada, Tobago and Trinidad. These make a total of 26,165 square miles of territory, with a population of close upon one million souls. The commercial importance of these colonies is somewhat out of proportion to their area and population. The commerce of Jamaica, Barbadoes and Trinidad alone amounts to three hundred millions. The tendency of the present time is towards the agglomeration of kindred races. We see it exhibited very strikingly in Germany. We know that it is the fixed policy of Great Britain to consolidate her colonial possessions. Commencing with North America no sooner has the work of constructing the magnificent empire of Canada been completed than attention is turned to the West Indies. The West Indian empire complete, she will turn to the waiting colonies of Australasia next, the great British Empire that is to be of the Southern Pacific. The tendency is a good one and is especially important to Great Britain, with her enormous outlying colonial possessions. The rivalry of small states and communities too frequently striving to profit, the one at the expense of the other—will thus be absorbed in a common desire for the general good, and the vitality hitherto employed in weakening a rival will be devoted towards the promotion of the good of all

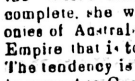

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

ELECTRICITY IS LIFE.
PULVERMACHER'S
Pocket Batteries.
CHAIN BANDS, BELTS
AND
PATENT GALVANIC
THESE REMARKABLE AND HIGHLY improved inventions render electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonizing pains, re-animating torpid limbs reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with the daily increasing number of cures effected by PULVERMACHER'S MEDICO GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention as the embryo of the universal remedy.
N. B—The following testimony from the ELITES of the English medical faculty has been received:
"We, the undersigned, have much pleasure in testifying that Mr J L Pulvermacher's recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.
Dated this 9th day of March, 1866
Sir Charles Locock, Bart., M.O, F.R.C.P.
Sir Henry Holland, Bart., M.D., F.R.S.
Sir Wm Ferguson, Bart., F.R.S.
Edward B. Stereking, M.D., M.R.C.S.
Sir J. Ranald Martin, F.R.S."
PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet gratis).
These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY
PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations. In the following maladies:—

This decree is printed in extenso in Pulvermacher's Pamphlet of recent Testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz. Dr Garcia's "Materia Medica," Dr Taunde's "Practice of Medicine," Dr Handfield Jones "On Nervous and Functional Disoders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St, London.

The Governor has been pleased to appoint E Graham Alston, Esq. to act as Attorney General for the colony of British Columbia.

The Governor has been pleased to appoint Henry S Mason, Esq, to act as Registrar General for the colony of British Columbia.

The Secretary of State to Gov. Musgrave.

Downing Street, 19th Jan, 1871.

SIR—I have the honor to acknowledge the receipt of your dispatch of 17th November No 147, in which you review the future position of the present Civil Officers of British Columbia, in so far as they will be affected by the union with Canada of the colony under your government.

I concur generally with the views expressed in this dispatch, and you are at liberty to inform the Civil Officers of British Columbia that their acceptance of employment under the Canadian Government will not preclude their applying at any future time for other employment under this Department, nor will it efface any claim to such employment which they may derive from their character and past services. [Signed] KIMBERLEY.

A Court of Assize and General Gaol Delivery will be held at Nanaimo on Wednesday the 7th day of June, next.

The Court will sit on the first day at 11 a m, and on each subsequent day at 10 a m.

THE MARTINI-HENRY RIFLE.—At last the British soldier has obtained a weapon which he may look upon as his permanent arm. The Small Arms Committee have made their final report, in which they recommend, unanimously, the Martini-Henry rifle, and the recommendation has been confirmed by the "Ordnance Council" of the War Department. It is probable, therefore, that instructions will be immediately issued for the conversion of the "Snider" machinery in the small arms manufactories to Martini-Henry machinery, and the manufacture of these wonderfully accurate and useful rifles will be pushed with the utmost vigour. The enquiry as to the most suitable arm for the British soldier was commenced, we believe, in 1867, and has been going on ever since. The Committee originally appointed recommended the Martini Henry; and it was ordered that samples of the arm should be distributed to the army in all parts of the Empire. It has, therefore, undergone the most thorough test, under various circumstances, in different climates and in different lands; and the reports from the various regiments all speak in the warmest praise of the weapon. But, while it has been undergoing these practical tests, it has been subjected to the most violent and determined opposition at home from rival gunsmiths and mechanicians, and Mr Cardwell has been driven almost to distraction by the extreme difference of opinion as to the merits of the weapon. But the weapon having stood every test to which it has been subjected, has triumphed over all opposition, and it is now to be the British Soldier's Companion. It is perhaps well that the rifle has been put through these severe tests, for it it is proved to be a military arm which both the soldier and the nation may have confidence in.

NEW WESTMINSTER.—A passenger died on board the steamer Hope on her last trip from Yale to New Westminster. He was a member of Mr Spence's road party, on the way to this city for medical treatment.....The *Guardian* is entirely responsible for the statement that one farmer on the Lower Fraser has sown 10 tons of wheat.....The steamer Lillooet, having undergone a thorough course of repair, will take her place on the route between New Westminster and Yale next Wednesday.....The amount of road tolls collected at Yale for the week ending May 6th was $1.299 05.

ANOTHER ATTEMPTED ROBBERY. — About 2 o'clock yesterday morning, Mrs Robert Holloway, who resides on Cormorant street, heard some person in the act of raising a window of her dwelling. She bravely got out of bed, walked to and opened the front door and fired a pistol in the direction of the window, when the rascals decamped. Should they return at any time there are five cylinders of the same pistol still charged.

AND STILL ANOTHER.—On Thursday night a citizen residing on Broad street heard footsteps in a front room, and a voice say, 'I guess they're asleep.' 'No, they're not!' he shouted from his bedroom, whereupon the scamps leaped through a window by means of which they had entered the premises and got off. Is it not singular that, with the almost nightly occurrence of these rascalities not a single arrest is ever made?

DEAD INDIAN.—It is said that there is the body of a dead Indian lying in a house on Humboldt street, that it has lain there four or five days, and that the Police are aware of the fact and have made no effort to remove it. Will anything stronger than this mention be necessary to cause the removal of the remains?

TRADES LICENSE. — Summonses returnable Friday next have been issued against defaulters for the half year ending December 31st 1871.

THE bark Columbia from the Hasting's Mills for Australia is expected to arrive off this port to-day.

TOO BAD.—Towards the conclusion of a leading article which was published in a local newspaper yesterday morning, and the appearance of which every right-thinking person must have regretted, the following passage occurs: 'Before he (Hon Mr Trutch) left, the COLONIST office-seekers tried to get up a public dinner in his honor; but it was so generally repudiated that it fell through.' Now the facts of the case are briefly these. There was a very general feeling amongst all political parties that the departure of the Hon Mr Trutch on so very important a mission should be made the occasion of some public demonstration. A meeting of prominent citizens was held and a Committee, consisting of His Worship Mayor Robertson, W C Ward, Esq, Manager of the Bank of British Columbia, and J Robertson Stewart, Esq, Merchant, was appointed for the purpose of inviting the Hon Mr Trutch to accept of a public dinner 'as a mark of respect for him as a private gentlemen and appreciation of his services as a public officer.' It will doubtless be within the reader's recollection that the public dinner was duly tendered by the above-named influential Committee and that it was declined by Mr Trutch. And this is what is now described as an abortive attempt on the part of the COLONIST office seekers to get up a public dinner in his honor! How true it is that

"Base envy withers at another's joy,
And hates that excellence it cannot reach."

A & H SOCIETY.—At a meeting of this society held yesterday the following officers were elected:—A J Langley, President; J D Pemberton and P H Clarke, Vice Presidents; John Jessop, Secretary; J D Pemberton, Treasurer. Messrs Pemberton, Mitchell and Clarke were appointed a committee to prepare a scheme and to draw up a prize list for the next show.

H. M. S. SCYLLA. — A telegram from Rear Admiral Farquhar (now at Honolulu) received via San Francisco yesterday, orders H. M. S. Scylla to sail for the South on Tuesday morning next. The Scylla will not return to this station, but after touching at Southern ports will sail for England. The Scyllas have made many friends during their stay in this Colony who will experience much regret at the parting.

H. M. S. ZEALOUS.—A telegraphic dispatch from San Francisco, yesterday, announces the arrival at Honolulu, twelve days previously, of H. M. S. Zealous, flagship of Rear Admiral Farquhar. After a fortnight's stay at Honolulu, the Zealous will sail for San Francisco, where she will lie three weeks or a month. She will then come on to this station and remain here until November next when she will sail for home.

CALIFORNIA'S PASSENGERS, &c.—The steamer Isabel will sail at 7 o'clock this morning for Port Townsend, where she will connect with the California from Portland and bring across the latter's mails and passengers.

HON. J. W. TRUTCH.—This gentleman sailed from Boston for Liverpool on the 21st April.

FOR SKEENA.—The Grappler will sail for Skeenamouth on Wednesday next.

Big Bend News.

BONAPARTE HOUSE, May 6th.

I have just arrived from French creek. There is rather an unusual quantity of snow over the mountain, but going fast. At Seymour Mr B McDonald and Mr D Foster with their respective gangs are busily engaged getting out lumber, rails, pickets, shingles, &c—the finest white pine and cedar lumber I have ever seen. The farmers on Thompson river as far down as Mr Cornwall's get the greater part of their fencing and logs from this almost inexhaustible source.

The Columbia has just commenced to rise. There is about a foot and a half or two feet of snow on the banks at the ferry. Mr Nichols is still at his solitary post and appears perfectly satisfied with his hermit life. He has kept a cow and a calf there all winter, but the hay had just given out and the 'moose-a-moos' riot in flour and wheat until the snow vanishes.

There are about sixteen men on French creek and they are making good wages. No one on McCulloch's creek at present, but there will most likely be some men working there later in the summer when the snow gets off the upper part of the creek. The Camp Creek Co have been mining on a bar of Gold creek, at the mouth of Camp creek, all winter and have made wages; now the creek has risen they have gone to their claim about a mile up Camp creek where they had sunk a shaft last fall about thirty feet, but the water got too much for them. They hope to get down this summer.

There is a rumor afloat that the steamer Fortyninie is coming up with a cargo of 'fore-and-afters' (Bunster's Chinamen).

The farmers on the Thompson will all have finished seeding in three or four days. A great deal of grain is up and looking well. They have had a most favorable Spring for work.

Capt Layton with his characteristic energy is getting up funds for horse races on the 24th. I expect there will be quite a gathering on Kamloops Flat. J. W. L.

Dominion Matters.

The report of the Ontario Lunatic Asylum for the year 1870 attests the importance and efficiency of that admirably conducted institution. On the 21st January, 1841 the institution was opened, and 17 patients received into it. Since then there have been 3,656 patients admitted—1876 men and 1780 women—of which number 1959, or more than one-half, were cured. The present appears to be the

RAILWAY ERA

in the Dominion. In every province, county, township, the cry is for railways; and in every legislative body, from the Dominion Parliament down to the miniature parliament known as the Township Council Railway bonuses are the order of the day. This railway mania embraces long lines and short lines, wide gauges and narrow gauges, and its culmination is to be the construction of the Canadian Pacific Railway. The Toronto, Grey and Bruce Railway, connecting Toronto with Owen Sound, has occupied a good deal of attention during several years back; and it was here that the great

BATTLE OF GAUGES

has been fought. In this instance at least, the narrow gaugers have come off victorious, and, according to latest accounts, the people of the County of Grey have, by a majority of eighteen hundred and seventy votes, passed the by-law granting a bonus of $264,000 to the railway, which, together with 36,000, previously granted, makes a total of $300,000, from that single county. It is expected that the County of Bruce will not be behind Grey in the matter, and that in less than eighteen months the road will be opened between Toronto and Owen Sound. The recent report of the Canal Commission has aroused the people of the North Western States, and the Chicago *Tribune* thus alludes to the subject of

CANAL ENGLARGEMENT.

'We need it far more than Canada does, and we must arouse our whole people, *en masse*, to some plan of co-operation with the Canadians in securing it. If fifty of the leading capitalists of the North West would co-operate energetically with those of Canada and with the friends in London, it would be carried to completion in a very few years. It would add millions of acres to the area of territory that would be profitably available for agriculture in the Northwest; would reduce all our railway and canal rates of freight and fare to the seaboard; would stimulate immigration in an unprecedented degree; would enhance largely the value of every acre of land in the Northwest; would tend to cement, in bonds of indissoluble Union, the people of Canada and those of the Northwestern States. The matter cannot possibly sleep. We know that our men of brains and energy will put their shoulders to the wheel and see this great enterprise carried through.' The third annual report, since Confederation, of the Dominion

POSTOFFICE DEPARTMENT

has been published, and it contains some interesting items. In 1870 the number of post-offices has risen to 3 820, and the number of letters transmitted amounted to 24,500,000. The number of miles travelled over during the year was 11.084,726. In a short time the postal system will extend over Manitoba, with a uniform letter rate of *two cents* and postal cards at one cent all over the Dominion. The correspondence between Canada and the old country may be imagined from the fact that the Allan line of steamers alone carried one million and a quarter of letters, considerably over that of number newspapers, forty thousand books and six and a half thousand patterns. In 1870 there were sent all over Canada one million of registered letters only 72 of which met with any accident, and

ONLY SIX

miscarried without responsibility being fixed on any party. Surely no better proof of the efficiency of the department, and the high state of perfection to which it has been brought could be well conceived. The number of parcels carried rose from 24 800 in 1868 to 51 844 in 1870. Perhaps the money order branch is the most interesting feature of the Department. During 1870 there were in operation 558 money order offices, and the total amount of orders issued rose to $3.898 747, being more than half a million in excess of 1868. The number of Post Office Savings Banks increased from 81 in 1868 to 226 in 1870, and the number of depositors increased from 3 247 to 24.994 during the same period. The amount standing at the credit of these depositors at the close of 1868 was $204 588 89. At the close of 1870 it was $1 995 132 99. It is worthy of remark that this enormous business has been transacted by so many hands without a single instance of fraud or loss having occurred. These facts speak volumes in praise of the administration of the affairs of the Postal Department, while, at the same time, they indicate the rapid march of prosperity in the Dominion. The report of the Directors of the

GREAT WESTERN

Railway of Canada for the half year ending 31st January last is published and it exhibits a very satisfactory condition of things. The gross receipts were about two and a quarter millions, leaving a net profit for the half year, eligible for dividends, of $600,000. At the shareholders' meeting recently held at London, England, the greatest satisfaction was expressed. The Great Western Railway, in common with the Grand Trunk and most other railways in the Dominion, appears to share in the general prosperity of the country. There can be no doubt that these great works have finally emerged from the gloomy era.

INTERESTING TO THE LADIES.—Paris has long been leader of the fashions and France the emporium of fashionable fabrics. The functions of both, in this respect, have been greatly paralysed by the late terrible war, and the revolution which followed continues to interrupt the resuscitation of these functions. The consequence is that all French manufactures, especially silk goods, have experienced a very decided upward tendency and are still rising. It is, however, a fortunate circumstance for this community that Messrs J P Tunstall & Co, of London, happened to make a very large purchase just in time to escape the great rise. These goods are from the celebrated factory of the best makers in France (C J Bonnet & Cie, of Lyons) and the ladies of Victoria will be pleased to know that a very rich assortment from that large purchase was received at the London House by the last steamer, and that the patrons of J H Turner & Co are to get the full benefit of the favorable circumstances under which these goods were bought, *

LAST NIGHT'S DISPATCHES.

Eastern States.

NEW YORK, May 12.—The *Tribune's* Washington special says, there are very few who criticise the Treaty of Washington as a whole, but the following are are some points which will arise in the debate, they will relate principally to the bill which provides for the settlement of the claims of British subjects.

Considerable surprise has been expressed by Sumner and one or two others that the American Commissioners did not insist that Great Britain should submit a schedule of the claims from her subjects, that it might definitely be known what kind they are or the amount is.

The claims of the British subjects in France have been cited to show that there is no occasion to fear that they will be large, the reply to this assurance was, that we are not sure that England will abide by these percedents, or that it would have been much more satisfactory to have had these points definitely settled.

WASHINGTON, May 12—Attention was called in the Senate to the premature publication of the Treaty. There was a spirited debate on the subject and an investigation has been ordered. Cameron stated that the Committee on Foreign Relations would not be ready to report on the Treaty until Monday. The Senate then adjourned till Monday next.

The Committee to investigate the premature publication of the Treaty consists of Messrs Carpenter, Clickling, Turnbull, Davis and Sumner.

Much indignation is expressed by the Senators at what they consider to be a violation of the privilages of the Senate.

The Committee on Foreign Relations held an adjourned meeting at 10 o'clock a. m. today, and continued until 1 o'clock, to assist the Secretary of State. Davis was before the Committee to furnish explanations on the treaty.

Some excitement has been caused in the Australian Colonies by the receipt of a dispatch by last mail from the Secretary of State for the Colonies, communicating a rumor of a filibustering expedition which was being projected in some American on Sydney and Melbourne. Europe.

LONDON, May 12—In the House of Lords to day Lord Redesdale asked whether the United States could raise the question of payment for vessels and property destroyed by the Alabama. He argued that the Southern States of America were alone responsible for losses by the Alabama and kindred ships, and that the government of Great Britain could not have legally detained the Alabama, for she was not armed when she left British waters.

Earl Lauderdale concurred.

Granville was glad the question had been raised, as it gave him an opportunity for the consideration of its provisions. He admitted the duty of government to give every attention to this view of the subject, and concluded by stating that the treaty itself would be in the hands of the government by the end of next week and that it would be promptly laid before Parliament for consideration.

BERLIN, May 12—In the German Parliament to day Bismarck gave the particulars of his recent visit to Frankfort to confer with Favre and Pouyer. Quereter said that if the object sought had not been accomplished the Prussians would have taken possession of Paris and demanded the withdrawal of the Versaillist forces behind the Loire. The treaty which was concluded provides for the payment of half a milliard of the indemnity by France 30 days after the entry of the Versailles army into Paris, and one milliard more before the end of December of the present year, when the Prussians will evacuate the Paris forts.

As to the abrogation of a commercial treaty, Bismarck stated that the withdrawal of the force from the maintenance of the investment was mainly for the purpose and in hope of the receipt of increased customs duties with which to liquidate her indebtedness. Ratifications of the treaty are to be exchanged on the 20th.

PARIS, May 12—The Committee of Public Safety have issued a proclamation to the people, which says the Republic and Commune have escaped mortal peril. Rossel's surrender of d'Issy was the first step in the drama; the opening of the gates of Paris was to follow. The majority of the guilty have been arrested and a courtmartial is now trying them. The punishment will be exemplary.

The Commune have ordered that religious instruction shall cease and that all crucifixes and madonnas be removed from the schools.

The *Steele* says that a vast Bonapartist organization exists throughout France.

VERSAILLES, May 12—The government forces carried the convent of d'Issy to day at the point of the bayonet. Three guns were taken and many insugents slain.

PARIS, May 12—The Socials propose immediate execution of the Central Committee. It is said they will retire.

VERSAILLES, May 12—A letter from Count Chambord is published bidding for the throne.

An attempt was made to assassinate Dembrouski.

Fifty thousand Versaillists will cross the Seine to-night.

LONDON, May 12—A Paris special says a levy en masse is expected. Gen Cecilia becomes Gen of Commune and demands 100 million francs from the bank.

NEW YORK, May 13—A dispatch from Paris yesterday says, At a meeting of Freemasons held this evening resolutions were passed that the property of persons now absent from Paris, who do not return within eight days, be confiscated for the benefit of the widows and orphans.

Fort d'Issy is armed with marine guns, destined to bombard the ramparts.

Port Maillot is utterly destroyed.

Several captains on the staff of the War Office, whose names were found on a list of agents of Imperial secret police, were arrested to day.

Dembrouski declares that Rossel is not a traitor.

BERLIN, May 12—At midday Prince Bismarck returned to the city.

Last night there was a great banquet at Frankfort at which were present Bismarck, Rothschild and Arnim.

California.

SAN FRANCISCO, May 13—Arrived—Barkentine W H Gawley, rt Madison.

Sailed—Bark Amethyst, Bellingham Bay; ship Commodore, Pt Ludlow.

A PHILADELPHIAN has invented a clock that will measure the one-ten-thousandth part of a second. The clock is described as a wonderful affair. The dial-plate which is sixteen inches in diameter, is seperated into 5,000 parts, and the indicator revolves twice every second. The clock is set upon a table, beneath which the pendulum revolves, and the intricacy of the affair may be imagined when the statement is made that the entire works can be placed in a small cigar box. The government ordinance offices have accepted the instrument for the purpose of measuring the velocity of projectiles.

THE oldest stove probably in the United States is one which warms the capitol at Richmond, in Virginia. It was made in England in 1770, and warmed the House of Burgesses for sixty years, before it was removed to its present location, were it has been for thirty years. It has survived three British monarchs; has been contemporaneous with four kingly monarchies, two republics and two Imperial Governments in France. The great American Republic has been sadly torn by internal strife, the breech partly healed, and still the old stove remains the same, unmoved in the midst of all.

THE prosperity and increase of the Central Pacific Railroad traffic the past winter are strongly shown by the figures of the January business which have come to hand. The earnings for that month were something over $400,000, being $111,000 in excess of the earnings in January 1870. The bonds of the Company, though generally a steady-going security, have made a notable advance from 91⅞ to 95.

To avert evil is one of the greatest triumphs of human skill. This triumph is achieved by Dr Walker's Vinegar Bitters. They build up, fortify and renoviate the whole system, thus enabling it to defy the elemental causes of disease. Hence their efficacy as a protective medicine in districts where the air and water are impure. The weakest and most susceptible organization is rendered proof against all malarious disorders by taking one or two doses daily as a preventive. 5

Helmbold's Extract Buchu is diuretic and blood purifying, and cures all diseases arising from habits of dissipation, and excesses and in prudences in life, impurities of the blood, etc. Superseding Copaiba in affections for which it is used, and syphilitic affections—in these diseases used in connection with HELMBOLD'S ROSE WASH.

LADIES.

In many affections peculiar to ladies, the Extract Buchu is unequalled by any other remedy—as in chlorosis or retention, irregularity, painfulness or suppression of customary evacuations, ulcerated or schirrus state of the uterus, leucorrhœa or whites, sterility, and for all complaints incident to the sex, whether arising from indescretion or habits of dissipation. It is prescribed extensively by the most eminent physicians and midwives for enfeebled and delicate constitutions, of both sex and all ages (Attended with any of the above diseases or symptoms.

O

H. T. HELMBOLD'S EXTRACT BUCHU
CURES DISEASES ARISING FROM IMPRUDENCES
HABITS OF DISSIPATION, ETC.,

in all their stages, at little expense, little or no change in diet, no inconvenience and no exposure. It causes a frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pains and inflamation, so frequent in this class of diseases, and expelling all poisonous matter.

Thousands who have been the victims of incompetent persons and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the 'Poison' has by the use of 'powerful astringents,' been dried up in the system, to break out in a more aggravated form, and perhaps after Marriage.

Use HELMBOLD'S EXTRACT BUCHU for all Affections and Diseases of the Urinary Organs whether existing in Male or Female, from whatever cause originating, and no matter of how long standing. PRICE ONE DOLLAR AND FIFTY CENTS PER BOTTLE.

L

HENRY T. HELMBOLD'S IMPROVED
ROSE WASH,

cannot be surpassed as a Face Wash and will be found the only specific remedy in every species of Cutaneous Affection. It speedily eradicates pimples, spots, scorbutic dryness, induration of the cutaneous membrane etc., dispels redness and incipient inflamation, blotch, rash, moth patches, dryness of the scalp or skin, fresh bites, and all purposes for which sulphur ointments are used; restores the skin to a state of purity and softness and insures continued healthy action to the tissue of it vessels on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy to existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principle claim to unbounded patronage by possessing qualities which render it a Toilet Appendage of the most superlative and congenial character, combining in an elegant formula those prominent requisites safety and efficacy—the invaluable accompaniments of its use—as a preservative and refresher of the complexion. It is an excellent Lotion for diseases of a Syphilitic nature, and as an injection for diseases of the Urinary Organs, arising from habits of dissipation, used in connection with the Extract Buchu, Sarsaparilla, and Catawba Grape Pills, in such diseases as recommended, cannot be surpassed. PRICE ONE DOLLAR PER BOTTLE.

To the Unfortunate
New Remedies! New Remedies!
DR. GIBBON'S DISPENSARY

No 623 Kearney Street Corner Commercial, San Francisco, established in 1854, for the treament of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc, etc. Skin diseases of you standing, and Ulcerated Legs, etc., successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may rely.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness.

Seminal emission is the consequence of self-abuse. The solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Shallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like a rattling of leaves, or rattling chariots, uneasiness about the loins, weakness of the limbs, confined vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples, and various eruptions about the face, hectic flushes, furred tongue, fetid breath, consumption, night sweats, monomania and frequently insanity. If relief be obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cured at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr Gibbon, case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain direction for use, by inclosing $10 in coin, in a registered letter, through the Postoffice or through Wells, Fargo & Co.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.

Address: DR. J. F. GIBBON,
